## **Heating Oil Prices Stabilize**

Augusta--- The Governor's Office of Energy Independence and Security (OEIS) conducted its seasonal oil survey and has found that the current statewide average cash price for No. 2 heating oil is **\$2.74 per gallon**, down two cents from last week.

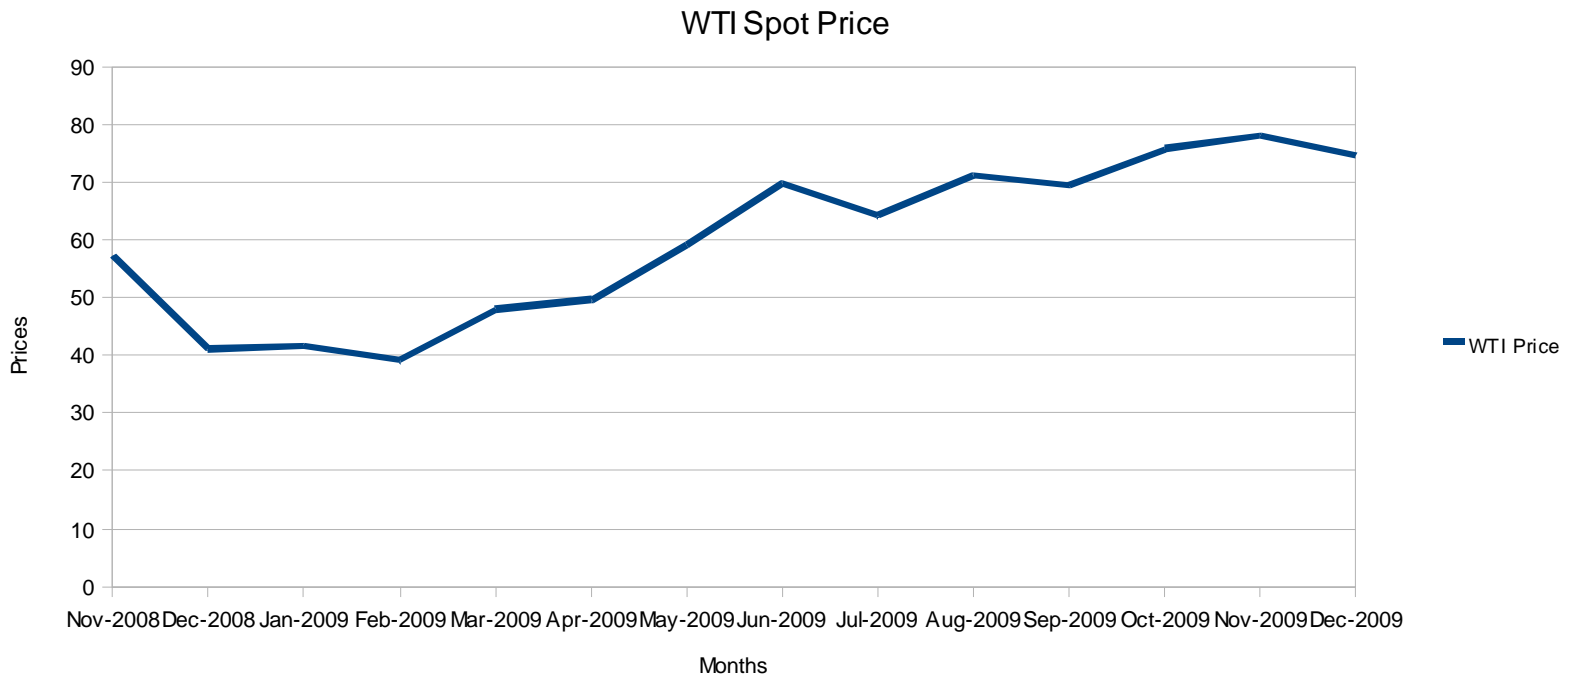

"Anticipated oil consumption growth rates domestically and internationally continue to provide price directives for oil," said OEIS Director, John Kerry. "All Maine consumers should take steps to weatherize their homes, reduce energy consumption and create an energy budget for this year's heating season."

As of January 25th, 2010

| <b>Heating Oil</b> | <b>Statewide</b> | <b>Southwest</b> | <b>Central</b> | <b>Eastern</b> | <b>Western</b> | <b>Northern</b> |
|--------------------|------------------|------------------|----------------|----------------|----------------|-----------------|
| Average            | 2.74             | 2.59             | 2.78           | 2.85           | 2.64           | 2.93            |
| High               | 3.00             | 2.80             | 2.88           | 3.00           | 2.7            | 3.00            |
| Low                | 2.4              | 2.4              | 2.68           | 2.7            | 2.5            | 2.72            |
| <b>Kerosene</b>    | 3.12             | 2.93             | 3.18           | 3.22           | 3.03           | 3.32            |
| <b>Propane</b>     | 2.97             |                  |                |                |                |                 |

It is important to note that the price for heating oil is a statewide average and that prices in a given geographic region of the state may be considerably higher or lower than the statewide average. Within the OEIS sample, the lowest actual heating oil price of \$2.40 per gallon was found in the Southwestern region. The highest price of \$3.00 per gallon was found in the Northern and Eastern regions. The statewide kerosene price average is \$3.12 per gallon at this time. The statewide average for propane based on a use of 600 gallons a year is \$2.97 per gallon. The table above provides current Maine cash prices in dollars rounded to the nearest penny.

At the time of this release the price of WTI crude oil, major driver of refined product prices, including heating oil was \$73.92. Below is a price trend of the price in 2009:

For assistance please contact Efficiency Maine and ask about their Maine Home Performance with Energy Star® Program. It links Maine homeowners with qualified, certified contractors who provide one-stop-shop access to a whole-house approach to home energy efficiency improvements. The first 4,000 **pre-approved** homes in the program will receive up to \$3,000 each in incentives for approved energy-efficiency projects that meet minimum heating and hot water energy savings requirements. For program details call 877-334-6583 or visit [www.mainehomeperformance.org](http://www.mainehomeperformance.org) and [www.efficiencymaine.com](http://www.efficiencymaine.com). Businesses should take advantage of Efficiency Maine's small business loan program to make energy upgrades: [http://www.efficiencymaine.com/business\\_programs.htm](http://www.efficiencymaine.com/business_programs.htm)

The next survey is scheduled for February 1st, 2010.
